Service Level Policy

SERVICE LEVEL AGREEMENT (SLA)

ICS offers the following SLA, which is defined as 99.5% system up-time based upon the total minutes per month of successful operation (up-time) divided by the total minutes of available operation time per month. This SLA is dependent upon the following:

1. Total available operational time is defined as the total number of days in a month multiplied by 24 hours multiplied by 60 minutes.
2. Does not include downtime for scheduled system maintenance.
3. Does not include "Force Majeure" events that are outside of ICS direct control.
4. **Does not include service disruption caused by a customer-provided IP connection.** The customer must have a primary bandwidth connection and a back-up bandwidth connection to ICS.

SLA Credits

In the event that the unscheduled downtime of the voice services provided by ICS exceeds 0.5%, ICS will provide the following credits:

No credit for a service level maintained above 99.5%.
